

A detailed illustration of a dental unit control panel. The panel is yellow with a silver border. It features a large, curved silver handle on the left side. In the center, there is a large, dark, irregularly shaped component, possibly a water or air filter. To the right of this component is a silver, conical nozzle or spray gun. Below the nozzle is a silver, cylindrical component with a textured surface, likely a handpiece or a specialized tool. On the left side of the panel, there are two small, circular components with silver handles, possibly for water or air control. A small, rectangular silver component is located near the top left corner. The entire panel is mounted on a silver base.
